Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE COLLOQUIUM LECTURE SERIES

OF THE

American Mathematical Society

I. The Boston Colloquium Lectures on Mathematics

The subjects discussed in these lectures are: I. Linear Systems of Curves on Algebraic Surfaces. By HENRY S. WHITE. II. Forms of Non-Euclidean Space. By FREDERICK S. WOODS. III. Selected Topics in the Theory of Divergent Series and of Continued Fractions. By EDWARD B. VAN VLECK. There is appended an extensive bibliography of algebraic continued fractions.

Published for the Society, 1905. Price $2.75; to members of the Society, $2.25.

II. The New Haven Mathematical Colloquium

I. Introduction to a Form of General Analysis. By ELIAKIM H. MOORE. II. Projective Differential Geometry. By ERNEST J. WILCZYNSKI. III. Selected Topics in the Theory of Boundary Value Problems of Differential Equations. By MAX MASON.

Published by the Yale University Press, 1910. (Out of print.)

III. The Princeton Colloquium Lectures

I. Fundamental Existence Theorems. By GILBERT A. BLISS. II. Differential-Geometric Aspects of Dynamics. By EDWARD KASNER.

Published by the Society, 1913. Price $2.50; to members, $2.00.

IV. The Madison Colloquium Lectures

I. On Invariants and the Theory of Numbers. By LEONARD E. DICKSON. II. Topics in the Theory of Functions of Several Complex Variables. By WILLIAM F. OSGOOD.

Published by the Society, 1914. Price $2.50; to members, $2.00.

V. The Cambridge Colloquium Lectures

I. Functionals and their Applications. Selected Topics including Integral Equations. By GRIFFITH C. EVANS.

Published by the Society, 1918. Price $2.00 ; to members, $1.50.

II. Analysis Situs. By OSWALD VEBLEN.

Published by the Society, 1922. Price $2.00; to members, $3.00. I and II bound together. Price $3.50; to members, $3.00.

CONTENTS

Vol. 24. No. 3 **October 1922** **Whole No. 95**

PAGE

On the location of the roots of certain types of polynomials. By J. L. WALSH, of Cambridge, Mass. 163

A note on the preceding paper. By D. R. CURTISS, of Evanston, Ill. . 181

Determination of all general homogeneous polynomials expressible as determinants whose elements are homogeneous polynomials. By H. S. EVERETT, of Lewisburg, Pa. 185

General vector calculus. By J. B. SHAW, of Urbana, Ill. 195

Any communications intended for these TRANSACTIONS may be addressed to the American Mathematical Society, Prince and Lemon Streets, Lancaster, Pa., or to individual officers of the Society as follows:

Subscriptions to the TRANSACTIONS should be addressed to the Treasurer of the Society, PROFESSOR W. B. FITE, 501 W. 116th St., New York City. The price per volume is $7.00.

Mathematical papers intended for publication in the TRANSACTIONS should be addressed to one of the editors:

Papers in Analysis to G. D. Birkhoff, 22 Craigie Street, Cambridge, Mass.

Papers in Geometry to L. P. Eisenhart, Princeton University, Princeton, N. J.

Papers in other fields to A. B. Coble, University of Illinois, Urbana, Ill.

Published quarterly by the American Mathematical Society, Lancaster, Pa., and 501 W. 116th St., New York City.

Printed at The Lancaster Press
Formerly The New Era Printing Company, Inc.

Entered as second-class matter at the Post-Office at Lancaster, Pa., under the Act of October 3, 1917
